Allowable Subject Matter

1. Claims 1-18 are allowed.
2. The following is a statement of reasons for the indication of allowable subject matter:

The present invention relates to method and apparatus for automatic gain control and antenna switching in a radio communication system. Upon further consideration and comparison with prior art of record (closest reference, Jager – US 6,330,433), claims 1-18 are allowed. Particularly, prior art of record, taking individually or collectively, fails to suggest a motivation for incorporating in such a method and apparatus for automatic gain control and antenna switching wherein the power calculation of the received signal is based on not only the output of the receiver but also a gain, as claimed in independent claims 1 and 10 (claims 2-9, 11-18 depend therefrom). Thus, claims 1-18 are found to be novel and unobvious over prior art of record.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dac V. Ha whose telephone number is 571-272-3040. The examiner can normally be reached on 4/4.
